

The Progress Reformer

Bettina Fischer is The Progress Reformer and your confidante – beyond Coach, Advisor and Viewer, for self-/leaders and organizations that strive for real progress – inner growth for holistic success.

As a **fast perceiver and thinker**, she helps you to redefine progress in a unexpectedly advantageous way and guides you to its accelerated manifestation – while you become holistic development and inspire others to do the same.

Bettina Fischer is specialized in making the hidden dynamics of progress and unconscious programs, connections and potentials conscious, transformable and unfoldable – with her method of **HyperTransformation**.

As **pioneer, innovator und integrator** with analytical precision as well as intuitive-medial perception with corresponding depth and foresight, she works with her own methods and techniques for better decision-making:

Bettina Fischer is the **trailblazer** where conventional approaches end and accelerated, holistic and successful progress begins – with the targeted activation of the «technology inherent in human»: the **Self**.

Her approach is radically individual, scientifically sound, spiritually open and proven in practice. It's uncompromisingly focused on excellence – and on the self (instead ego) as source of personal, corporate and social success.

She guides people to enter new levels of feeling, thinking and acting, to shape reality more consciously and effectively – and thereby to **save time, energy and money, respectively to gain them in a targeted manner**.

Strong-willed, courageous and future-oriented personalities work with Bettina Fischer, to unfold their potential much better; self-/leadership, development und systemic reformation of the new era much more successfully – clearly, holistically, fulfilled.

The result, also for your relatives if desired: **more clarity, better impact, greater satisfaction – beyond goal achievement**.

Biography Bettina Fischer

Bettina Fischer stands for progress that goes deeper and reaches further. Her international path is lived development – and the basis of her work for those who want more than superficial change – often with unconscious reduction.

As a child, she recognized the effect of programs on human behaviour – **and the potential to decode and shape them**. As a teenager, she learned to program on one of the first microcomputers – **and drew parallels between codes developed by humans and patterns according to which they «function»**.

She has climbed the career ladder from the lowest to the highest rung – and beyond, always **with an eye for the hidden mechanisms of human development, organizational transformation and systemic dynamics**.

With roots in the media, sports and entertainment world - including the management of an economic newspaper for the country's largest media company and education up to an Executive Master, **she knows many industry realities: from Fortune 500s, to global consulting firms, to diverse cultures**.

She has invested thousands of hours in her development with a wide variety of teachers worldwide, studying science, spirituality and phenomenology as well as further training in dance pedagogy, breathing therapy and financial astrology – **learning is a life principle for her**.

In 2008, at the height of the financial crisis, **she founded her first company**, the CorporateEnergizer GmbH, for combined personal and corporate development. At the same time, a corporation, a university and a member of the elite wanted to realize their own plans with her. **But she opted for independence – and won a central bank, a technology group and a pension foundation as her first clients**.

Today she continues her work with Progress Reformation by Bettina Fischer – **also to raise awareness of better standards of progress**.

Real progress begins where you are prepared to develop your own self responsibly: with Bettina Fischer, the Progress Reformer.
